

# NEBOSH Certificate in Environmental Management

**Duration:**  
5 days

**Aim:**  
The **NEBOSH Certificate in Environmental Management** aims to provide an excellent overview of environmental management systems, including the relevant international standards and best practices for control of environmental hazards. It is suitable for:

- Managers, supervisors and employees who have a responsibility for managing environmental issues
- Those looking to start a career in environmental management

The NEBOSH Environmental Certificate is widely respected by employers worldwide; holders are eligible for:

- Associate Membership of IEMA (**AIEMA**)
- Technician Membership of CIWEM (**TechCIWEM**)

**Objectives:**  
By the end of the course, delegates should be able to contribute in meaningful ways to the following issues within their organisations;

- The foundations of environmental management
- Environmental management systems
- Environmental impact assessments
- The control of emissions to air
- The control of contamination of water sources
- The control of waste and land use
- Sources and use of energy and energy efficiency
- The control of environmental noise
- Planning for and dealing with environmental emergencies
