

IOSH Managing Safely

Duration:

4 days, either consecutively or over a period.

Aim:

Every manager should have an understanding of their health and safety responsibilities, and this flexible course aims to help managers to develop the skills they need to tackle safety and health issues in the workplace.

<http://www.iosh.co.uk/training/iosh-training-courses/managing-safely-course.aspx>

Objectives:

By the end of the course candidates should be able to;

- Assess risks
- Control risks
- Understand their responsibilities
- Recognise hazards in their workplace
- Investigate incidents
- Measure performance
- Protect the environment

Contents:

- Managers'/supervisors' responsibilities and the impact of the law
- Assessing risks – hazard identification, the concept of “risk”, 5- step guide to risk assessment
- Controlling risks – hierarchy of risk controls, the concept of “reasonable practicability”, cost effectiveness in controlling risks. Costs of failure.
- Understanding hazards
