

# NEBOSH International General Certificate in Occupational Health and Safety

**Duration:**

10 days or by Distance Learning

**Aim:**

- The International General Certificate in Occupational Health and Safety is suitable for managers, supervisors and staff from all types of organisations making day-to-day decisions at work that need a broad understanding of health and safety issues and be able to manage risks effectively. It is also suitable for anyone wishing to take the first steps toward a career in occupational health and safety management

The NEBOSH International Certificate is widely respected by employers worldwide, and holders are eligible for Technician Membership of the Institution of Occupational Safety and Health (IOSH)

**Objectives:**

By the end of the course, delegates should be able to take an effective, active part in dealing with the following issues within their organisations;

- Laying the foundations for health and safety
- Developing appropriate health and safety management systems based on a Plan, Do, Check, Act approach related to international standards
- Controlling workplace hazards and developing risk controls
- Dealing with internal transport hazards
- Addressing problems associated with musculoskeletal hazards and developing appropriate risk controls
- Reducing risks associated with work equipment,
- Electrical safety
- Fire safety
- Chemical and biological health hazards and risk control
- Physical and psychological health hazards and risk control
